

FROM AROUND US

MEIL opens skill development centre at Bhoothpur in Mahabubnagar:

Megha Engineering & Infrastructure Limited (MEIL) chairman P.P. Reddy said that skill development is a stepping stone for nation building and it was necessary to improve the skills of the youth and students.

Addressing a gathering after inaugurating a Skill Development Centre at Bhoothpur in Mahabubnagar district on Wednesday, Mr. Reddy said: "MEIL believes in giving back to the society by positively impacting lives. We believe that if the community develops, society develops, and if the society develops, the nation develops."

Rajiv Bheema Lift Irrigation Project:

The powerhouse of the lift two of the Rajiv Bheema lift irrigation project scheme in Mahabubnagar district, the project arrangements are being made to provide Krishna water from the foreshore of Srisailem reservoir to Mahabubnagar districts and project taken up under Jalayagnam programme at an estimated cost of Rs 2,990 crore.

The Jawahar Nettempadu Lift Irrigation Scheme(JNLIS) envisages lifting of 21.425 TMC of water from the foreshore of PJP Reservoir to create irrigation for 0.81 Lakh Ha(2.00 lakh acre) in the drought prone upland areas of Gadwal and Alampur constituencies covering about 148 villages in 8 mandals besides providing drinking water facilities en-route the canal in Mahabubnagar District. The Government have accorded Administrative sanction vide G.O.Ms.No. 108, Dated 22.06.2005 for Rs. 1428 Crs.

FROM THE COO'S DESK

"A person has to remember that the road to success is always under construction"-Steve Harvey.

Incredible India Projects Pvt. Ltd. is one of Telangana's most admirable and trusted Real Estate Organization and a Brand on its own. Since inception our Organization is headquartered in Secunderabad, has distinctive legacy by envisioning quality projects. IIPPL is dedicated in shaping a modern India by developing appreciating projects. IIPPL has successfully completed unique projects named "Sparrow Shore",

"Sparrow Shore Avenue", "Wild Stone", "Wild Stone Brob", "Wild Stone-LE", "Awesome Adda", "Awesome Adda Special", "TomorrowWorld", "1857-Reviving Revolution", "PoorvAabhaas", "Golden State", "Kanmani" and "Preranaapunj" project across Telangana.

I take privilege to announce that IIPPL is diversifying into **Construction Business** and is on the threshold of launching its first prestigious project during the second quarter of 2024 by name **"Incredible-Winsome"@ Shamirpet** on National Highway near Genome Valley. This project will come with abundant greenery, world class specifications, spacious and modern designs and is vastu compliant. We are currently engaging in developing multiple High-end, premium residential and commercial projects across various locations in and around Hyderabad.

In today's ever evolving world, innovation is the key to success. At IIPPL, we shall embrace the latest technologies and construction methods, ensuring that our projects are not only state-of-the-art but also environmentally responsible. **"Realty Revolution"** is not just a Buzzword for us, it's a commitment we uphold in every aspect of our work.

Our Customers are our Partners / Brand Ambassadors, and their satisfaction is our ultimate goal. We understand that each of our projects are unique, and we tailor our services to meet the specific needs and aspirations of our Customers.

May this New Year bring a lot of opportunities to serve you. Thanks for being with us. Happy New Year 2024.

Yours truly,

Praveen Kumar Nedungadi

INFO CORNER

1. Excavators

Excavators are important and widely used equipment in construction industry. Their general purpose is excavation but other than that they are also used for many purposes like heavy lifting, demolition, river dredging, cutting of trees etc. Excavators contain a long arm and a cabinet. At the end of long arm digging bucket is provided and cabinet is the place provided for machine operator. This whole cabin arrangement can be rotatable up to 360° which eases the operation. Excavators are available in both wheeled and tracked forms of vehicles.

2. Backhoe

Backhoe is another widely used equipment which is suitable for multiple purposes. The name itself tells that the hoe arrangement is provided on the back side of vehicle while loading bucket is provided in the front. This is useful for excavating trenches below the machine level and front bucket loading, unloading and lifting of materials can be done.

3. Dragline Excavator

Dragline excavator is another heavy equipment used in construction which is generally used for larger depth excavations. It consists a long length boom and digging bucket is suspended from the top of the boom using cable. For the construction of ports, for excavations under water, sediment removal in water bodies etc. can be done by dragline excavator.
